THE INFINITE WAY
Established by Joel S. Goldsmith

Thank you for your interest in the message of The Infinite Way. The Office of The Infinite Way was established by Joel in 1950, and it is maintained and sustained by the Consciousness that created it. The fact that the Office and Joel's message has flourished for so long is testimony to the continuing unfoldment of the nature of the Consciousness that brought forth this message. Therefore, we can only authenticate The Infinite Way material from this Office as Joel's original, complete and unaltered work. I encourage all students who have questions about the Infinite Way to contact our office. We are here to serve you.

Aloha ,
Geri McDonald

During the early days of Joel's lecture and Class work, he was approached by a student requesting to tape record a Class so that students could listen and study it over a period of time. Joel immediately wanted to know all about the recording technology behind this process. This was the beginning for the idea of The Infinite Way Tape Department.

Emma Goldsmith, who was Joel's wife, is the reason that we have these wonderful tape recordings still available to us today. She established The Tape department for Joel. She used the finest equipment and training in creating this department. Her suggestions to the audio recording industry helped to refine the technology.

The recordings take place from 1951 to 1964. Joel gave over 600 lectures during that time period. Each recording is approximately two hours. You will note by the titles of each recording how far Joel went all over the world to lecture. Today, we still receive orders for his work from six continents.

We invite you the experience of being there with Joel, the master of this message, as he imparted these words of divine inspiration around the world to students. Aloha.

We will only replace the same titles.

***We no longer replace or upgrade reel-to-reel recordings.

Fidelity: Early tapes were recorded under adverse conditions. Consequently, the fidelity of Mr. Goldsmith's message may not be perfect.

Background Noises: All tapes were recorded in the classroom, you may find normal background noises on some tapes. ***A very important part of our studio work is the archiving process for the protection and preservation of these audio recordings. We continue to use the very latest technology available to insure that this message will always be available to those who are interested. All natural sounds will remain as they are part of the experience of being present when the Class and lecture work was given.

Duplication of recordings: We are asked if students may make duplicate copies of Infinite Way tape recordings. **We cannot give this permission.** We have provided a studio at considerable cost with the finest equipment available and employ a trained technician to ensure the highest quality of our recordings. It is our policy to make all recordings and duplications in our studio. Furthermore, the publisher's copyrights must be protected. Therefore, please do not make duplicates of any Infinite Way recordings. Joel S. Goldsmith relied on the integrity of each student to guide their actions and to protect The Infinite Way.
